

1. Draw around your hand very carefully.
If you'd like your artwork to be bigger, you could draw around a grown-up's hand.
2. In pencil, gently draw the outlines of all the things you'd like to put on your hand. Include words if you like.
3. Using whatever media you choose, carefully colour in your decorations.
4. Very carefully go over the outlines in black pen (or pressing harder with a pencil) to make them stand out!
