Dear Mr Onceler,

I am writing this letter to ask you to STOP chopping down the Truffula trees because it is ruining the land.

Your factories are destroying the Land of the Lorax! The pond used to sparkle in the sun, but now it is full of Gluppity Glup. Those poor hummingfish have dirt in their gills and now they can't sing anymore. It's so sad! It used to be so lovely here. All the beautiful trees have been cut down and now they are just stumps. What a mess you have made! How are the bar-ba-loots supposed to eat now? Where are they going to go? They don't have a home now. It is all your fault!

Why did you set up those factories? You just want lots of money for yourself. What a greedy man you are! Thanks to you, all of the sky is covered in smogulous smoke. It isn't fair! What is a Thneed anyway? Who is buying them? Please stop chopping down trees straight away. Think about what you are doing!

Yours sincerely,

Year 2
