

Computing in Year 2

Uses of IT

- I can recognise computers at school and home and can say how they help us.
- I know that computers are devices that store and follow instructions.

E-Safety

- I know the dangers of sharing photos and information online.
- I know that people might not be who they say they are online.
- I can use the internet respectfully and responsibly.

Using Computers Creatively

- I know where letters are on a keyboard and I am getting faster at touch typing.
- I can use lines, shapes and fill tools to make patterns and pictures in digital art.
- I can add text, images and voice recordings onto different pages of an e-book.
- I can add a background to a frame for an animation.
- I can clone a frame and move my objects to animate my picture.
- I can create stop motion animations using photos on an iPad.

Programming

- I can create a simple programme and debug it (remove errors)
- I can add a loop to make my program go round.
- I can use my logic to predict what my program will do.

Data Handling

- I know what data is and I can collect it in a tally.
- I can create bar charts, pie charts, pictograms and line charts with my data using simple software.
- I can edit a table to make sure it has the correct titles and numbers.
