

Sorting Skeleton Types

I can sort animals based on their skeletons.

Cut out and stick the animals based on the type of skeleton they have. Then write down one pro (positive) and one con (negative) for each type of skeleton.

Endoskeleton		Exoskeleton		Hydrostatic Skeleton	
Pro	Con	Pro	Con	Pro	Con

Remember:

- Endoskeleton means the skeleton is on the inside.
- Exoskeleton means the skeleton is on the outside.
- Hydrostatic skeleton means the animal has no bones.

				
elephant	tortoise	slug	butterfly	human
				
jellyfish	killer whale	ant	beetle	lobster
