

Dragon Class Newsletter

11th November 2019

Welcome back everybody. I hope you all had a lovely half term.

This half term is always a busy one as we start to prepare for the nativity and Christmas celebrations.

Church visit

On Wednesday Dragon class went to visit the church. When we arrived Mrs Reed explained to us about when the church was built. The children then had to find different materials around the church. We were able to find things made from stone, glass, metal and wood. The children were great at observing and discussing what they found. They were really excited when they found something made from two different materials.

In science we have started our topic on animals. The children have been identifying and naming different animals. They then had to have a go at grouping the animals. We learnt about mammals, birds, reptiles, fish, amphibians and insects. The children sorted animals into groups and said why they were in that group.

Please continue to support your child with reading at home.

Thank you

Miss Daley
