

# Dragon Class Newsletter

14<sup>th</sup> October 2019

## Skipton Castle

The children had a wonderful time at Skipton castle. They learnt all about how Skipton castle was built and who owned the castle. They looked in all the different rooms. They were very shocked by the medieval toilet system! Dragon class were very brave and went in the dungeon where they were told they would be staying for the rest of the visit. That didn't go down well. But they did enjoy having the lights turned off to see how dark it would have been for the prisoners staying in there, some staying in for 6 weeks. After lunch the children had time to draw the castle and the Clifford coat of arms. We got some fantastic art work from the children. They were really well behaved and thank you again to our parent helpers.

## Indian story telling

The children really enjoyed the Indian story telling. Sita told them a story about a jackal who tricked the animals. They then had a go at making their own story scrolls called Phad.

We have been working hard on addition and subtraction of numbers to 10. This will be carrying on up to half term and a quick recap after the holidays. If you could help at home by playing games to encourage combining numbers using objects or food that would really help. In literacy we have been working on writing a recount of our trip to Skipton castle and making sure we use the correct time words, such as first, next and then, to order our recount.

Thank you

Miss Daley
